REASONS FOR ALLOWANCE

- The following is an examiner's statement of reasons for allowance: The present invention is directed towards an image processing method and apparatus for color correction. The closest prior art, Kagawa et al. (USPN 7,177,469 B2), shows a similar system, in which, In a color conversion device, first color correction amounts are determined from first image data consisting of a plurality of first color data, and second color correction amounts are determined from characteristics information of the first image data is calculated, and the first color correction amounts. The second color correction amounts are added to the first image data, to determine the second image data. The characteristics information is determined by calculating the characteristics information by a calculation using the lightness information and the chroma information of the first image data, so that color conversion reflecting characteristics information including the lightness information and the chroma information of the image is achieved. However, Kagawa et al. fail to address: "for detecting a plurality of correspondence between a first plurality of feature colors and a second plurality of feature colors by extracting said first plurality of feature colors featuring said first image from said first image and extracting said second

plurality of feature colors featuring said second image from said second image, making a first decision of deciding said first plurality of feature colors in accordance with an extent of appearance of said first plurality of colors and making a second decision of deciding said second plurality of feature colors in accordance with an extent of appearance of said second plurality of colors and a correction step of correcting said first plurality of colors or said second plurality of colors in accordance with said correspondence". These distinct features have been added to each independent claim and renders them allowable.

- Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
